DESCRIPTION OF COURSE

University: University of Economics in Bratislava	
Faculty: Faculty of Applied Languages	
Course code: KIK FAJ/JJB21624/22	Title of course: Communication Skills in German II.
Type, load and method of teaching activities: Form of course: Practical Recommended load of course (number of lessons): Per week: 2 Per course: 26 Method of study: present	
Number of credits: 4	
Recommended semester/trimester of study: 2.	
Degree of study: I.	
Prerequisites:	
Requirements to complete the course: Requirements to complete the course: Interim evaluation: 40% Final evaluation: 60%	
Student workload: Full-time study: 104 hours. Of which: 26 hours – attendance at seminars 30 hours – preparation for seminars and for the interim evaluation 48 hours – preparation for the final exam	
Teaching results: Teaching results: Knowledge: The thematic focus of the course reflects the professional specificities of the study, including knowledge of the sociocultural aspects of German speaking countries. The course focuses on practical language, developing students' linguistic communication skills in German in accordance with the requirements of their field of study. The student will become familiar with the linguistic devices of the different genres, such as narration, description, reflection, etc. They will acquire active learning strategies to develop listening and reading comprehension. They will learn to understand non-verbal forms of communication. Competences: The student can reliably convey detailed information, express ideas with sufficient precision, and develop discussion on familiar topics. The student is able to work with a wide range of authentic spoken and written texts in German and to carry out follow-up tasks and activities. Students can create and comprehensibly develop monologic genres such as narration, description, reflection, etc., as well as engage in dialogue with a German speaking communication partner. Skills: Upon completion of the course, the student will have attained communication skills that will enable him/her to understand and communicate appropriately in oral and written expressions in the target language. The student will be able to initiate, maintain and terminate communication by effectively alternating with a communication partner. The student is able to adapt his/her means of expression	

to the situation and the recipient. They can adapt to changes in the course of a conversation. They can use linking expressions effectively to convey the relationship between ideas.

Indicative content:

Indicative content:

- Narrative communication skills - storytelling as a stylistic procedure and a unit. Talking in typical and atypical situations.
- Descriptive communication techniques - description as a stylistic procedure and unit.
- Argumentation communication techniques - argumentation, controversy, discussion, debate.
- Interpretive and reflection communication techniques - interpretation and reflection style procedure.
- Dialogized speech - dialogues in selected communication situations.
- Linguistic means of narration, description, argumentation, explanation and reflection and dialogue.

DESCRIPTION OF COURSE

University: University of Economics in Bratislava	
Faculty: Faculty of Applied Languages	
Course code: KIK FAJ/JJB21612/22	Title of course: Communication Skills in English II.
Type, load and method of teaching activities: Form of course: Practical Recommended load of course (number of lessons): Per week: 2 Per course: 26 Method of study: present	
Number of credits: 4	
Recommended semester/trimester of study: 2.	
Degree of study: I.	
Prerequisites:	
Requirements to complete the course: Requirements to complete the course: Interim evaluation: 40% Final evaluation: 60%	
Student workload: Total study load (in hours): Full-time study: 104 hours. Of which: 26 hours – attendance at seminars 30 hours – preparation for seminars and for the interim evaluation 48 hours – preparation for the final exam	
Teaching results: Teaching results: Knowledge: <ul style="list-style-type: none">- Acquiring knowledge of the socio-cultural aspects of English-speaking countries as well as non-verbal forms of communication.- Acquisition of active learning strategies to develop listening and reading comprehension. Competences: <ul style="list-style-type: none">- Developing the ability to work with a wide range of authentic spoken and written texts.- The implementation of targeted tasks and activities will enable students to expand their receptive and productive competence in both oral and written expression.- Developing the ability to reliably convey detailed information and express ideas with sufficient precision.- Deepening the ability to express one's own attitudes and opinions and to develop discussion on familiar topics Skills: <ul style="list-style-type: none">- The course focuses on practical language and the development of students' linguistic communication skills in English in accordance with the requirements of their field of study.- The achievement of communication skills that enable students to understand and communicate appropriately in oral and written expressions in the target language.	

- To deepen the ability to initiate, maintain and terminate communication by effectively alternating with a communication partner, adapting their means of expression to the situation and the recipient, and adapting to changes in the course of the conversation.
- Developing the skills associated with constructing and developing narratives, descriptions, etc. in a clear way and using linking expressions to show the relationship between ideas.

Indicative content:

Indicative content:

- Nonverbal communication in theory and practice
- Techniques of presentation skills.
- Creation of narrative units.
- Creation of descriptive units.
- Creation of interpretive and reflection units
- Creating dialogues in typical and atypical situations

DESCRIPTION OF COURSE

University: University of Economics in Bratislava	
Faculty: Faculty of Applied Languages	
Course code: KIK FAJ/JJB21623/22	Title of course: Communication Skills in German I.
Type, load and method of teaching activities: Form of course: Practical Recommended load of course (number of lessons): Per week: 2 Per course: 26 Method of study: present	
Number of credits: 4	
Recommended semester/trimester of study: 1.	
Degree of study: I.	
Prerequisites:	
Requirements to complete the course: Requirements to complete the course: Interim evaluation: 40% Final evaluation: 60%	
Student workload: Total study load (in hours): Full-time study: 104 hours. Of which: 26 hours – attendance at seminars 30 hours – preparation for seminars and for the interim evaluation 48 hours – preparation for the final exam	
Teaching results: Teaching results: Knowledge: The course reflects the professional focus of study, including an understanding of the social and cultural aspects of German speaking countries. The student will expand and improve his/her general and specialized vocabulary and linguistic knowledge in the German language, as well as communication skills in both oral and written expression. The student will learn to use expressive techniques in description, interpretation, reasoning, argumentation, etc. They will acquire active learning strategies for producing their own texts and speeches. They learn to use presentation techniques effectively. Competences: The student is able to work with a wide range of authentic spoken and written texts in German and to carry out more demanding tasks. The student is able to express himself/herself clearly and politely in both formal and informal functional styles. They can express own opinions and take positions on current social and professional issues. They are able to engage in group discussion on topics related to the field of study. Skills: Upon completion of the course, the student will have attained communication skills that will enable him/her to understand and communicate appropriately in longer and more complex oral and written expressions in the target language. The student will be able to produce grammatically and stylistically correct speech that can be adapted to the situation and the recipient.	

Indicative content:

Indicative content:

- Narrative communication skills - storytelling as a stylistic procedure and a unit. Talking in typical and atypical situations.
- Descriptive communication techniques - description as a stylistic procedure and unit.
- Argumentation communication techniques - argumentation, controversy, discussion, debate.
- Interpretive and reflection communication techniques - interpretation and reflection style procedure.
- Dialogized speech - dialogues in selected communication situations.
- Linguistic means of narration, description, argumentation, explanation and reflection and dialogue.

DESCRIPTION OF COURSE

University: University of Economics in Bratislava	
Faculty: Faculty of Applied Languages	
Course code: Dekanát FAJ/ JJD21012B/22	Title of course: Defence of the final thesis
Type, load and method of teaching activities: Form of course: Recommended load of course (number of lessons): Per week: Per course: Method of study: present	
Number of credits: 10	
Recommended semester/trimester of study: 5., 6..	
Degree of study: I.	
Prerequisites:	
Requirements to complete the course: Grade Score Passed A = excellent = 1 91 – 100 B = very well = 1,5 81 – 90 C = well = 2 71 – 80 D = satisfactory = 2,5 61 – 70 E = sufficient = 3 51 – 60 Failed FX = insufficient = 4 0 – 50 Student defenses his/her final thesis and answers the questions of supervisor and opponent.	
Student workload:	
Teaching results: Teaching results: In the final work the student demonstrates that he is able to work systematically and independently in the relevant field. The student is able to process empirical data, is able to use professional terminology and can identify the problem, criteria for selecting and formulating topics and techniques for formulating research goals and hypotheses, is able to analyze, evaluate and compare relevant data, can use professional literature, is familiar with the given topic, is able to use theoretical knowledge in independent work and apply it to research, can describe a research problem and take a stand, and finally is able to draw conclusions from the researched issues. The topics of the final theses must correspond to the content focus of the field of study and the study program for which they are advertised. The complexity of the final work corresponds to the profile of the graduate of the study program and the scope of knowledge acquired by studying in this study program.	
Indicative content: The final thesis has a prescribed balanced structure. The scope and structure of the work are defined by the internal regulation No. 11/2019 on final, rigorous and habilitation theses and its annexes. 1 to 12. The student of the final year of the first degree of study is obliged to submit the final thesis in accordance with the schedule of the given academic year at the study department of the Faculty of Applied Languages. The final thesis of the first / second degree of study is written and then defended in one of the two profile languages of the study program. It includes a summary in the Slovak language in the range of 10% of the total scope of the final thesis.	
Support literature: according to the thesis assignment

DESCRIPTION OF COURSE

University: University of Economics in Bratislava	
Faculty: Faculty of Applied Languages	
Course code: KJaT FAJ/JJC21611/22	Title of course: English for Academic Purposes
Type, load and method of teaching activities: Form of course: Practical Recommended load of course (number of lessons): Per week: 2 Per course: 26 Method of study: present	
Number of credits: 4	
Recommended semester/trimester of study: 3.	
Degree of study: I., N	
Prerequisites:	
Requirements to complete the course: Interim evaluation: 40% Final evaluation: 60%	
Student workload: Total study load (in hours): Full-time study: 104 hours 26 hours of seminars 30 hours of preparation for the seminars and for the interim evaluation 48 hours of preparation for the exam	
Teaching results: Teaching results: Knowledge: - Acquisition of theoretical knowledge about the characteristics and basic features of the English academic language. The student is able to characterize and identify the basic features of academic language in specific texts at the level of language levels (morphological, syntactic, lexicological, stylistic, text-linguistic) and masters the principles of creating academic texts, Competences: - Acquisition of the ability to apply time management in the process of creating an academic text, gaining the competence to distinguish and evaluate the complexity of the phases of creating an academic text (preparation for writing an academic text, writing itself, control phase), - competence to formulate the goal of scientific work (research), - gaining an overview of possible methods of scientific research and gaining competence in the suitability of their use in the elaboration of a specific topic, - gaining an overview of the structure of basic types of academic texts in the source and target language and gaining the competence to distinguish possible intercultural differences, etc. Skills: - Acquisition of skills to draft selected types of academic texts with emphasis on those with which he is confronted during his studies (e.g. seminar paper, final thesis, written assignments), - acquisition of skills to apply appropriate language strategies related to the creation of academic texts (use of appropriate lexical, stylistic, morphosyntactic means) in the target language,	

gaining the ability to consciously distinguish appropriate from inappropriate language means (colloquial expressions, syntactically incomplete sentences, inaccurate, ambivalent expressions, etc.)

Indicative content:

- Characteristics of academic language (the difference between general and academic language)
- Principles of creating academic texts, guided writing models, expanding academic vocabulary, dealing with unfamiliar vocabulary, writing techniques (rephrasing, summarizing, etc.)
- Developing skills required for academic research, including developing a thesis, acknowledging sources, etc.
- Frequent morphosyntactic language phenomena in academic texts
- Frequent lexical and stylistic linguistic phenomena in academic texts
- Developing techniques for speaking in an academic setting (argumentation, expressing opinions, giving and supporting opinions, giving presentations, taking part in academic discussions, interviewing, etc.)

Faculty: Faculty of Applied Languages	
Course code: KJaT FAJ/JJC21205/22	Title of course: General German Language II
Type, load and method of teaching activities: Form of course: Practical Recommended load of course (number of lessons): Per week: 6 Per course: 78 Method of study: present	
Number of credits: 6	
Recommended semester/trimester of study: 2.	
Degree of study: I.	
Prerequisites:	
Requirements to complete the course: Interim evaluation: 40% Final evaluation: 60%	
Student workload: Full-time study: 156 hours. Of which: 78 hours – attendance at seminars 31 hours – preparation for seminars and for the interim evaluation 47 hours – preparation for the final exam	
Teaching results: Knowledge: <ul style="list-style-type: none"> • Expansion of students' vocabulary, related to selected topics. • Acquiring the basic knowledge concerning both the historical development of German and the sources from which the German vocabulary has drawn or draws. • Gaining orientation in the context of existing regional varieties of German and an overview of the German language standard Competences: <ul style="list-style-type: none"> • Boosting students' ability to perceive the level of formality, informativeness, and accessibility of a text. • Improvement of students' ability to express themselves actively, in a grammatically correct and stylistically appropriate manner. Skills: <ul style="list-style-type: none"> • Development of students' language skills. • Emphasis is laid on the development of students' ability to produce texts with the required stylistic parameters. • Expansion of the practical skills in the use of grammatically correct and stylistically appropriate ways of expressing ideas, related to the topics discussed in both oral and written form. 	
Indicative content: <ul style="list-style-type: none"> - Established phrases, idioms, phraseologisms and their practical use in everyday communication; - Linguistic means of formal and informal communication and their practical use in communication; - Historical development of the German language and its influence on contemporary vocabulary; - Sources of vocabulary enrichment in the past and at present; 	

The status of the German language in a globalized world, the linguistic norm and its practical functioning;
Regional variants of the German language – Austriacisms vs. Teutonisms, Helvetisms vs. Teutonisms

DESCRIPTION OF COURSE

University: University of Economics in Bratislava	
Faculty: Faculty of Applied Languages	
Course code: KJaT FAJ/JJC21621/22	Title of course: German for Academic Purposes
Type, load and method of teaching activities: Form of course: Practical Recommended load of course (number of lessons): Per week: 2 Per course: 26 Method of study: present	
Number of credits: 4	
Recommended semester/trimester of study: 3.	
Degree of study: I.	
Prerequisites:	
Requirements to complete the course: Interim evaluation: 40% Final evaluation: 60%	
Student workload: Total study load (in hours): Full-time study: 104 hours 26 hours of seminars 30 hours of preparation for the seminars and for the interim evaluation 48 hours of preparation for the exam	
Teaching results: Knowledge: - Acquisition of theoretical knowledge about the characteristics and basic features of the German academic language. The student is able to characterize and identify the basic features of academic language in specific texts at the level of language levels (morphological, syntactic, lexicological, stylistic, text-linguistic) and masters the principles of creating academic texts. Competences: - Acquisition of the ability to apply time management in the process of creating an academic text, gaining the competence to distinguish and evaluate the complexity of the phases of creating an academic text (preparation for writing an academic text, writing itself, control phase), - competence to formulate the goal of scientific work (research), - gaining an overview of possible methods of scientific research and gaining competence in the suitability of their use in the elaboration of a specific topic, - gaining an overview of the structure of basic types of academic texts in the source and target language and gaining the competence to distinguish possible intercultural differences, etc. Skills: - Acquisition of skills to draft selected types of academic texts with emphasis on those with which he is confronted during his studies (e.g. seminar paper, final thesis, written assignments), - acquisition of skills to apply appropriate language strategies related to the creation of academic texts (use of appropriate lexical, stylistic, morphosyntactic means) in the target language,	

gaining the ability to consciously distinguish appropriate from inappropriate language means (colloquial expressions, syntactically incomplete sentences, inaccurate, ambivalent expressions, etc.).

Indicative content:

- Characteristics of academic language (the difference between general and academic language)
- Principles of creating academic texts, guided writing models, expanding academic vocabulary, dealing with unfamiliar vocabulary, writing techniques (rephrasing, summarizing, etc.)
- Developing skills required for academic research, including developing a thesis, acknowledging sources, etc.
- Frequent morphosyntactic language phenomena in academic texts
- Frequent lexical and stylistic linguistic phenomena in academic texts
- Developing techniques for speaking in an academic setting (argumentation, expressing opinions, giving and supporting opinions, giving presentations, taking part in academic discussions, interviewing, etc.)

DESCRIPTION OF COURSE

University: University of Economics in Bratislava	
Faculty: Faculty of Applied Languages	
Course code: KAI FHI/VIA21280/21	Title of course: Informatics Skills A
Type, load and method of teaching activities: Form of course: Lecture / Practical Recommended load of course (number of lessons): Per week: 0 / 2 Per course: 0 / 26 Method of study: present	
Number of credits: 4	
Recommended semester/trimester of study: 5.	
Degree of study: I.	
Prerequisites:	
Requirements to complete the course: Requirements to complete the course: 20 % individual work and assignments 80 % final paper	
Student workload: Total study load (in hours): 104 hours Distribution of study load participation in seminars 16 h, preparation for seminars 26 h, elaboration of a semester project 42 h, preparation for the exam 20 h	
Teaching results: The development of ICT brings with it constant changes in their applications in practice and therefore students should achieve the following learning outcomes: Orientation in the application of current information and communication technologies in practice with an emphasis on the use of PCs. Gain information skills in the field of writing materials using knowledge of MS Word in a clear form. Gain the basics of the latest presentation techniques using MS Power Point for professional presentation. Present and defend on a professional level the semester projects created by them.	
Indicative content: Indicative content: <ul style="list-style-type: none">• Introduction to the subject Information Skills A. Course organization and assessment conditions, requirements for the course Information Skills A. Development and characteristics of information and communication technologies (ICT), transformation of society into the information society, the need for computer literacy, characteristics of computer literacy. Characteristics of the software package for MS OFFICE office work. Introduction to working with the text editor MS Word. Basic terms used in working in a given application program product.• MS Word text editor - characteristics and description of the application, elements of the application window, application control, document creation, document editing, selection of tools for effective work with documents and modification of their overall appearance. Creating a new document, text file and saving it, various formats for saving text files. Writing text, text alignment, working with	

paragraphs, tabs, inserting special characters, symbols, moving text, copying and deleting text, text formatting, type, typeface and font size, text color, moving around the document. Formatting with styles. Saving and opening files.

- Basic requirements of the document. Page numbering, hard page break (page break), document header and footer editing, different types of bullets, line spacing. Use of graphic files, various file formats, raster and vector graphics, search, creation and formatting of images. Insert image, clip art, shapes.
- Insert SmartArt charts and images into a document. Use of WordArt. Working with a table in a document, creating a table, resizing a table, formatting a table.
- Basic options for document printing, page margins, page orientation, document printing. Using a paragraph style. Find and replace text.
- Creation of more extensive documents such as students' final theses in accordance with the internal directive for final theses valid for EU students in Bratislava. Working with the References card. Document content generation, document content update, footnotes, descriptions of figures and tables, lists.
- Create a PDF document. Teamwork in MS Word. Tracking changes. Accept and reject changes. Document security. Solution of a complex example for working with the text editor MS Word.
- Mail merge - enter and insert fields, merge fields, address block, greeting block, etc. Envelopes and labels. Languages, spelling, automatic corrections. Basics of computer typography.
- Basic skills in working with the presentation software product MS PowerPoint 2019. Program launch, program control, program environment description, window description, image display modes. Basics of creating a presentation, purpose planning, presentation method, form and content based on the definition of purpose and audience, selection of a suitable format and template for the presentation. Presentation creation, background and layout of slides, slide master, text insertion and formatting, color, size, alignment, etc.
- Figures, diagrams, graphs, tables and drawing objects in the presentation, pasting, copying, moving and deleting, rotating and flipping drawn objects. Object animations, predefined animation options, setting your own animations, selecting from effects and determining time, automatic projection, timing in automatic projection.
- Interactive presentation, action buttons and hyperlinks. Processing audio in a slide show, embedding audio from a file, recording your own audio comments, assigning audio to a slide transition or animation effect.
- Video as a component of a multimedia presentation, searching for digital video files, inserting a video clip, and setting it to play. Preparation of documents, notes, printing of presentations and preparation for the presentation on the road, preparation of technical equipment for the presentation.
- Continuous assessment of students' work during the semester on the active form of teaching. Presentation of the final project.

DESCRIPTION OF COURSE

University: University of Economics in Bratislava	
Faculty: Faculty of Applied Languages	
Course code: KJaT FAJ/JJC21106/22	Title of course: Introduction to Linguistic
Type, load and method of teaching activities: Form of course: Lecture / Practical Recommended load of course (number of lessons): Per week: 2 / 2 Per course: 26 / 26 Method of study: present	
Number of credits: 4	
Recommended semester/trimester of study: 1.	
Degree of study: I.	
Prerequisites:	
Requirements to complete the course: Interim evaluation: 30% Final evaluation: 70%	
Student workload: Total study load (in hours): Full-time study: 104 hours 26 hours – attendance at lectures 26 hours – attendance at seminars 16 hours – preparation for seminars and for the interim evaluation 36 hours – preparation for the final exam	
Teaching results: Teaching results: Knowledge: - Acquire basic information about the history and development of linguistics as a discipline in its own right. In particular, attention will be focused on acquiring knowledge about the nature and structure of language as a system, but also about its functioning as a process of communication. Students will acquire knowledge of the phenomena and processes occurring at the different levels of language. Competences: - Acquire a holistic view of the nature of linguistics and an understanding of the subject matter of its study. - Acquisition of competence in perceiving and understanding the differences between functionalist and formalist approaches to the study of language and an understanding of the processes occurring at specific levels of language. - Understanding the factors - discourse parameters that significantly influence the use of particular linguistic devices in a given communicative situation. Skills: - Acquisition of key relevant concepts and acquisition of the ability to analyse linguistic phenomena correctly and to use appropriate linguistic terminology. - Based on an understanding of the nature of the parameters of discourse, develop the ability to select and use specific linguistic resources in order to achieve specific communicative goals.	

Indicative content:

Indicative content:

- Linguistics and the subject of its study, interdisciplinary overlaps of linguistics
- European structuralism and F. de Saussure
- Functionalist vs. formalist approach to the study of language
- Language and communication, context, discourse
- Linguistic sign, morphological typology of languages, relationship between linguistics and semiotics
- Planes of language and their characteristics

DESCRIPTION OF COURSE

University: University of Economics in Bratislava	
Faculty: Faculty of Applied Languages	
Course code: KIK FAJ/JJB21601/22	Title of course: Introduction to Political Science
Type, load and method of teaching activities: Form of course: Lecture Recommended load of course (number of lessons): Per week: 2 Per course: 26 Method of study: present	
Number of credits: 4	
Recommended semester/trimester of study: 6.	
Degree of study: I.	
Prerequisites:	
Requirements to complete the course: Requirements to complete the course: Interim evaluation: 30% Final evaluation: 70%	
Student workload: Full-time study: 104 hours. Of which: 26 hours – attendance at seminars 23 hours – preparation for seminars and for the interim evaluation 55 hours – preparation for the final exam	
Teaching results: Knowledge - Knowledge of political processes, political theory, political systems, political parties, and international relations - knowledge of the rule of law, liberal democracy, human rights, and civil liberties Competences - to understand basic political science terminology - ability to identify the dangers of contemporary liberal democracies - ability to distinguish between different types of democracy, political systems, political parties - to use political theories to explain political patterns and the functioning of nation-states Skills - to reflect on current political issues and be able to highlight the dangers of modern democracies - to analyse the basic patterns of political systems - to compare political systems, look for similarities and differences	
Indicative content: Indicative content: - Political science as a social science - Structure of political science - Democracy and the problems of contemporary democracy - Political systems: democratic and non-democratic - Political parties, ideologies, party systems - International relations and the structure of the international order	

- Cold War
- Political extremism

DESCRIPTION OF COURSE

University: University of Economics in Bratislava	
Faculty: Faculty of Applied Languages	
Course code: KJaT FAJ/JJC21206/22	Title of course: Linguistic Characteristics of the German Language
Type, load and method of teaching activities: Form of course: Practical Recommended load of course (number of lessons): Per week: 2 Per course: 26 Method of study: present	
Number of credits: 4	
Recommended semester/trimester of study: 2.	
Degree of study: I.	
Prerequisites:	
Requirements to complete the course: Interim evaluation: 30% Final evaluation: 70%	
Student workload: Total study load (in hours): Full-time study: 104 hours 26 hours of seminars 23 hours of preparation for the seminars and for the interim evaluation 55 hours of preparation for the exam	
Teaching results: Knowledge: <ul style="list-style-type: none">- Acquisition of knowledge of the typical features of the German language (e.g., from a diachronic, diatopic, diastratic perspective) that distinguish it from other languages.- Acquisition of knowledge of the current developmental tendencies in the German language and its characteristics from a genealogical perspective.- Acquisition of theoretical knowledge of the different linguistic levels of contemporary German from a systems linguistics perspective and a basic knowledge of traditional linguistic disciplines.- Acquisition of knowledge of the rules of orthography of the German language.- Acquisition of a thorough knowledge of morphology and syntax in particular: the student can list, define and identify morphological categories; student knows the morphological rules and the specifics related to the different inflectional verbal types in the German language; knows the principles of the basic word-formation practices of the Spanish language; can list, define and identify sentence articles; knows the categorization of sentence types and the rules of sentence construction in the German language. Competencies: <ul style="list-style-type: none">- Acquisition of the competence to characterize the German language from a linguistic perspective, with emphasis on the morphological and syntactic levels of the language.- Acquisition of the competence to identify symptomatic linguistic expression in the German language with respect to selected aspects of the diachronic, diatopic and diastral planes.- Acquisition of competence to assess the orthographic correctness of linguistic expression in the German language.	

Skills:

- Acquisition of the ability to apply the above knowledge and competencies in a comprehensive way to the production of one's own linguistic expression in the German language.

Indicative content:

- Characteristic features of the target language (diachronic, diatopic, diastratic perspective)
- Characteristics of the target language from a morphological perspective
- Characteristics of the target language from a word-forming perspective
- Characteristics of the target language from a syntactic perspective
- The target language from the view of other perspectives of systemic linguistics
- Development trends in the current (target) language

DESCRIPTION OF COURSE

University: University of Economics in Bratislava	
Faculty: Faculty of Applied Languages	
Course code: KET NHF/JNE22101/22	Title of course: Principles of Economics
Type, load and method of teaching activities: Form of course: Lecture / Practical Recommended load of course (number of lessons): Per week: 2 / 2 Per course: 26 / 26 Method of study: present	
Number of credits: 5	
Recommended semester/trimester of study: 1.	
Degree of study: I., N	
Prerequisites:	
Requirements to complete the course: individual work, written test, written exam Seminars 40%, of which: Activity at seminars 15% Elaboration and presentation of a team case study 10% Written tests. 15% Final written exam 60%	
Student workload: Total student workload: 130 hours of which: Face to face instruction - lectures: 26 hours Face to face instruction - seminars: 26 hours Preparation for seminars: 13 hours Preparation of a team case study: 15 hours Preparation for written tests: 15 hours Preparation for the final exam: 35 hours	
Teaching results: Knowledge: Students acquire introductory knowledge of economics. They understand behaviour of economic agents at the micro level and understand key macroeconomic variables. Competences: Students acquire competences to analyse functioning of the market and behaviour of economic agents and the analysis of macroeconomic variables and understanding of the relationship between them. Skills: The course develops analytical and presentation skills of students and their ability to work in a team.	
Indicative content: Subject and methodology of economics. Economic way of thinking, alternative economic systems. Key economic problems. Market and market mechanism, demand, supply, equilibrium price. Elasticity of demand and supply. Consumer behaviour in a market economy. Decision-making of firms in the market for goods and services (competitive market, forms of imperfect competition).	

Market for factors of production, income distribution, income inequalities at the national and global levels, alternative ways to address them. Macroeconomic equilibrium, aggregate demand and aggregate supply. Measuring macroeconomic performance. Expenditure equilibrium in a closed economy. Economic growth, sources of economic growth, challenges to achieve sustainable growth. Theoretical approaches to the business cycle, business cycle in current economies. The monetary sector of the economy, price stability, effects of monetary policy. Government budget, public debt and fiscal policy. Introduction to open economy macroeconomics.

Syllabus:

Course syllabus:

Lectures/seminars topics

WEEK 1

Introduction to economics.

Definition of economics. Micro and macroeconomics. Two approaches to economics (positive and normative economics). Principles of economic thinking, economic way of thinking, economic laws, basic issues of the organization of the economy and their solution in different economic systems. Production possibility frontier and its applications.

WEEK 2

Market mechanism. Market and market system. Demand, supply and equilibrium price.

Market mechanism and its functioning. Market failures, externalities, and public goods. Demand and demand curve, law of diminishing demand. Factors influencing the size of demand and the shift of the demand curve. Supply and supply curve, law of increasing supply. Factors influencing the size of supply and the shift of the supply curve. Individual and market demand. Individual and market supply. Market equilibrium, equilibrium price and equilibrium quantity.

WEEK 3

Elasticity of demand and supply.

Elasticity of demand – definition, factors influencing price elasticity of demand. Price elasticity of demand and its effect on total revenue. The relevance of the concept of elasticity for decision making process of companies. Price elasticity of demand and cross elasticity. Price elasticity of supply – calculation and factors influencing elasticity of supply.

WEEK 4

Consumer equilibrium.

Consumer equilibrium and the marginal utility theory. Consumer preferences and consumer budget constraint. Total utility, marginal utility, the law of diminishing marginal utility.

Indifference analysis (indifference curve, indifference map, budget line) and consumer equilibrium. The impact of the price and income changes on consumer equilibrium.

WEEK 5

Costs, revenues and profit of the firm. Firm in a competitive market.

Firm and its main goal. Costs in the short run and in the long run. Total, average and marginal costs. Revenues of the firm. Main features of a competitive market. Individual demand for firm's production. Equilibrium of a firm in a competitive market in the short and in the long run.

WEEK 6

Imperfectly competitive market structures, monopoly, oligopoly, monopolistic competition.

Causes of imperfection structure and its forms. Monopoly, types of monopoly. Equilibrium of a monopoly in the short and in the long run. Price discrimination. Inefficiency of a monopoly.

Oligopoly and its forms. Equilibrium of an oligopoly firm. Characteristics of monopolistic competition. Equilibrium of a firm in monopolistic competition in the short-run and in the long-run.

WEEK 7

Market for factors of production. Income distribution.

Demand for production factors as a derived demand. Marginal productivity theory and decision of a firm on the optimal amount of inputs. Individual markets for inputs. Labour market – labour supply and labour demand. Substitution and income effect of the wage change. Imperfections on the labour market, the role of unions on the labour market. Market for land–supply and demand of land, market equilibrium. Capital market–supply and demand of capital, market equilibrium.

Income distribution, measuring income inequality. Sources of income inequality.

Income distribution, measuring income inequality. Sources of income inequality.

WEEK 8

Measuring macroeconomic performance, AD and AS model.

Measuring of economic activity – GDP, methods of GDP calculation, nominal and real GDP.

GDP imperfections and alternative ways of measuring economic performance. Definition of aggregate demand and aggregate supply, factors influencing the size of AD and AS, alternative approaches to AD and AS. The use of the AD-AS model in macroeconomic analysis.

WEEK 9

Consumption, savings and investment.

Consumption as the largest component of aggregate demand. Changes in consumption and their effect on AD. Consumption function, average propensity to consume and marginal propensity to consume. Savings and savings function. Average and marginal propensity to save. Expenditure equilibrium in a closed economy. Investment and its effects. Investment multiplier and its role.

WEEK 10

Economic growth and business cycle.

Economic growth, its measurement. Sources of economic growth. Ways to ensure sustainable economic growth. Problems of economic growth in developed and less developed countries.

Business cycle – its phases. Impact of the business cycle on key macroeconomic variables.

Business cycle caused by shocks to aggregate demand and aggregate supply. Business cycle in the AS-AD model.

WEEK 11

Money, inflation, unemployment.

The nature and functions of money. Money supply and monetary aggregates. Money demand, theories of money demand, liquidity preference theory and quantitative theory of money. Creation of bank money and money market multiplier. Inflation and its measurement. Demand pull

inflation and cost push inflation. Costs of inflation. Deflation and its impact on the economy. Unemployment and measurement of unemployment. Forms of unemployment. Natural rate of unemployment. Alternative approaches to Phillips' curve.

WEEK 12

Fiscal policy. Monetary policy.

Fiscal policy. Revenues and expenditures of government budget. Government budget deficit and public debt. Fiscal policy objectives and its transmission mechanism. Stabilization fiscal policy. Automatic stabilizers. Discretionary fiscal policy and discretionary fiscal policy instruments. Short-term and long-term effects of fiscal policy in the AS-AD model, impacts of the fiscal policy on AD and AS. Monetary policy, monetary policy objectives. Types of monetary policy. Monetary policy transmission mechanism. Indirect monetary policy instruments. Short-term and long-term impacts of the monetary policy in the AS-AD model. Non-standard monetary policy instruments.

WEEK 13

International trade, international monetary relations.

The nature and causes of the existence of international trade. Theories of international trade, absolute advantage and comparative advantage. Foreign trade policy instruments – tariffs and quotas and their effects on the efficiency of resource allocation. International movement of capital and its forms. Equilibrium on the international capital market. Balance of payments and its structure. Exchange rate, nominal and real exchange rate. Formation of exchange rate. Exchange rate systems. Introduction to purchasing power parity theory.

DESCRIPTION OF COURSE

University: University of Economics in Bratislava	
Faculty: Faculty of Applied Languages	
Course code: KJaT FAJ/JJC21102/22	Title of course: Professional Business English Language and Communication I.
Type, load and method of teaching activities: Form of course: Practical Recommended load of course (number of lessons): Per week: 4 Per course: 52 Method of study: present	
Number of credits: 6	
Recommended semester/trimester of study: 3.	
Degree of study: I.	
Prerequisites:	
Requirements to complete the course: Interim evaluation: 30% Final evaluation: 70%	
Student workload: Total study load (in hours): Full-time study: 156hours 52 hours of seminars 32 hours of preparation for the seminars and for the interim evaluation 72 hours of preparation for the exam	
Teaching results: Learning outcomes: Knowledge: - acquisition of theoretical knowledge of the characteristics and basic features of the English professional language. - the student can characterise and identify the basic features of professional language in a text and knows the principles of the production of professional economic texts in theoretical and practical terms. Competences: - know the basic principles of the functioning of professional language, - the student can use receptive and productive language skills at the required level, - understands longer speeches and conversations; understands longer professional texts with a complex structure; can express himself/herself adequately on general and professional topics and formulate ideas and attitudes clearly, - in writing, can produce clear, well-organized, and detailed text on complex professional economic topics, demonstrating mastery of compositional techniques, connective expressions, and means of cohesion, - use flexibly and effectively the acquired linguistic knowledge, which is essential for the student's successful application in practice, for professional purposes. Skills: - apply the acquired skills in working with professional texts, e.g. seminar papers, final thesis, case studies,	

- apply appropriate linguistic strategies related to the production of professional texts (use of appropriate lexical, stylistic, morphosyntactic devices) in the target language,
- acquiring the ability to consciously distinguish appropriate from inappropriate linguistic devices in professional economic communication (colloquial expressions, syntactically incomplete sentences, imprecise, ambivalent expressions, etc.).

Indicative content:

- how inventors think, first impressions, networking
- production and consumption, which includes sharing, renting, reusing, repairing, refurbishing, and recycling existing materials and products for as long as possible, product lifecycle, effective working meetings, decision making, problem-solving
- financial investment, negotiations, marketing, customer relationship
- communication skills, employment trends, conflict resolution
- disruptive factors in business, business ethics, and corporate social responsibility
- brainstorming, meeting management
- case study solving, business workshop

DESCRIPTION OF COURSE

University: University of Economics in Bratislava	
Faculty: Faculty of Applied Languages	
Course code: KIK FAJ/JJB21613/22	Title of course: Selected Chapters of American Literature
Type, load and method of teaching activities: Form of course: Practical Recommended load of course (number of lessons): Per week: 2 Per course: 26 Method of study: present	
Number of credits: 4	
Recommended semester/trimester of study: 4.	
Degree of study: I.	
Prerequisites:	
Requirements to complete the course: Requirements to complete the course: Interim evaluation: 40% Final evaluation: 60%	
Student workload: Total study load (in hours): Full-time study: 104 hours 26 hours of seminars 30 hours of preparation for the seminars and for the interim evaluation 48 hours of preparation for the exam	
Teaching results: Teaching Results: Knowledge: <ul style="list-style-type: none">• Acquisition of knowledge about the main development lines in the history of American literature, about their most important representatives and their works. The course is primarily focused on acquiring knowledge in the field of development of American literature and its most important periods. In addition to gaining knowledge of the history of English literature, students will also acquire generally applicable knowledge, broaden their cultural horizon and understand the connections between socio-historical and literary phenomena and events. Based on gaining an overview of individual periods and specific literary works, students will develop personal attitudes to events and their reflections in literature. The given knowledge is also applicable in related subjects and fields of study. Competences: <ul style="list-style-type: none">• deepening critical thinking by reading and analyzing specific literary texts;• understanding of basic terminology in the field of literary theory and its correct use in the analysis of literary works;• competence to characterize individual literary directions, currents and schools and to abstract these characteristics from a specific literary text;• competence in the field of linguistic analysis of a text on the basis of knowledge of the historical, social and cultural background of the period. Skills:	

- skill in the application of literary text analysis procedures - determination of the external and internal structure of the text, type of narrator, classification and characterization of characters, literary space, etc.;
- ability to analyze and express a critical opinion on representative works of selected authors of individual literary directions;
- the ability to assign a literary text to a specific literary period, current or school;
- skill in the intercultural approach to literature - the influence of world literatures on American literature and vice versa.

Indicative content:

Indicative content:

- Colonial Period.
- The American Renaissance. Transcendentalism.
- American Romanticism. Gilded Age.
- Realism and Naturalism in American Literature.
- Literature between Word Wars. Literature after the Second World War.
- 20th century American Drama. Postmodernism and contemporary American Literature.

DESCRIPTION OF COURSE

University: University of Economics in Bratislava	
Faculty: Faculty of Applied Languages	
Course code: KIK FAJ/JJB21622/22	Title of course: Selected Chapters of German Literature II.
Type, load and method of teaching activities: Form of course: Practical Recommended load of course (number of lessons): Per week: 2 Per course: 26 Method of study: present	
Number of credits: 4	
Recommended semester/trimester of study: 4., 6.	
Degree of study: I.	
Prerequisites:	
Requirements to complete the course: Requirements to complete the course: Interim evaluation: 40% Final evaluation: 60%	
Student workload: Total study load (in hours): Full-time study: 104 hours 26 hours of seminars 30 hours of preparation for the seminars and for the interim evaluation 48 hours of preparation for the exam	
Teaching results: Teaching Results: Knowledge: <ul style="list-style-type: none">• Acquisition of knowledge about the main development lines in the history of German literature, about their most important representatives and their works. The course is primarily focused on acquiring knowledge in the field of development of German literature and its most important periods. In addition to gaining knowledge of the history of English literature, students will also acquire generally applicable knowledge, broaden their cultural horizon and understand the connections between socio-historical and literary phenomena and events. Based on gaining an overview of individual periods and specific literary works, students will develop personal attitudes to events and their reflections in literature. The given knowledge is also applicable in related subjects and fields of study. Competences: <ul style="list-style-type: none">• deepening critical thinking by reading and analyzing specific literary texts;• understanding of basic terminology in the field of literary theory and its correct use in the analysis of literary works;• competence to characterize individual literary directions, currents and schools and to abstract these characteristics from a specific literary text;• competence in the field of linguistic analysis of a text on the basis of knowledge of the historical, social and cultural background of the period. Skills:	

- skill in the application of literary text analysis procedures - determination of the external and internal structure of the text, type of narrator, classification and characterization of characters, literary space, etc .;
- ability to analyze and express a critical opinion on representative works of selected authors of individual literary directions;
- the ability to assign a literary text to a specific literary period, current or school;
- skill in the intercultural approach to literature - the influence of world literatures on German literature and vice versa.

Indicative content:

Indicative content:

- German literature of the Romantic period
- Literary period "Vormärz" and „Biedermeier“. Literary movement "Junges Deutschland"
- German literature of the period of Realism and Naturalism
- German literature of the 20th century
- German Literature in the Postwar Period (1945 - 2010)
- Contemporary German literature

DESCRIPTION OF COURSE

University: University of Economics in Bratislava	
Faculty: Faculty of Applied Languages	
Course code: KJaT FAJ/JJC21001/22	Title of course: Seminar for Bachelor thesis I.
Type, load and method of teaching activities: Form of course: Practical Recommended load of course (number of lessons): Per week: 2 Per course: 26 Method of study: present	
Number of credits: 2	
Recommended semester/trimester of study: 5.	
Degree of study: I.	
Prerequisites:	
Requirements to complete the course: Interim evaluation: 40% Final evaluation: 60%	
Student workload: Full-time study: 52 h 16 hours of seminars 10 hours of preparation for the seminars 26 hours of preparation for the exam	
Teaching results: Knowledge: - After studying and mastering the content of this course, the student gains basic understanding of the structure of a bachelor's thesis and gets acquainted with the principles of accessing materials, particularly analytical materials, scientific and specialized literature, primary and secondary sources and statistical materials. Competence: - Mastering basic methods and methodological principles, technical and formal rules of writing a bachelor thesis according to its type, individual stages of planning, principles and composing a bachelor's thesis and strategies for presenting the work of the sub-tasks. Skills: - Processing empirical data, using professional terminology and mastering the competence of identifying the problem and the criteria for selecting and formulating the topic and the techniques of formulating research objectives and hypotheses, analyzing, evaluating and comparing relevant data. At the same time, after completing the course, the student is able to form conclusions and evaluation in accordance with the methodology of processing thesis valid at the University of Economics in Bratislava.	
Indicative content: - Bachelor thesis, its focus - Choice of topic - Structure of the bachelor thesis - Supervisor of the bachelor thesis and student, rights and duties, work with literature and research - Research problem and formulation of the thesis objective	

- Methodology and scientific methods of work

Support literature:

Required:

DESCRIPTION OF COURSE

University: University of Economics in Bratislava	
Faculty: Faculty of Applied Languages	
Course code: Dekanát FAJ/ JJD21001B/22	Title of course: State exam
Type, load and method of teaching activities: Form of course: Recommended load of course (number of lessons): Per week: Per course: Method of study: present	
Number of credits: 10	
Recommended semester/trimester of study: 5., 6..	
Degree of study: I.	
Prerequisites:	
Requirements to complete the course: Conditions for completion of the subject are to pass the oral part of the state exam successfully. In terms of the oral part of the exam, the student answers the questions from the English language and culture (linguistic characteristics of the language and culture of the given language area) and discusses a given topic in English. He/she answers the questions of the members of the committee. When assessing the certain parts of the state exam, the following grading system is used: A – excellent – 1 B – very good – 1,5 C – good – 2 D – satisfactory – 2,5 E – sufficiently – 3 FX – unsatisfactory – 4. The overall result is set up as an average of assessments from the certain parts followingly : A – excellent – 1 – average up to and including 1,25 B – very good – 1,5 – average from 1,26 to and including 1,75 C – good – 2 – average from 1,76 to and including 2,25 D – satisfactory – 2,5 – average from 2,26 to and including 2,75 E – unsatisfactory – 3 – average from 2,76 to and including 3,00.	
Student workload:	
Teaching results: The student has a developed language competence in the English language on the C1 level of CEFR. He/she can react in a qualified way and with the appropriate language form on the questions and problems of the key subjects of the study program (Linguistic Characteristics of English Language, Business English and Academic English, Area and Intercultural Studies in the English Language). He/she can apply the obtained theoretical knowledge into the case studies. The student has communicative and written skills needed for the creation of the spoken and written texts of cultural-societal, political, and professional characters in the English language.	
Indicative content: - Linguistic Characteristics of the English language - English for Specific Purposes - Negotiation in the English language - History, Civilization, and Culture of English speaking countries.
